Dr Darren Green Revascularisation of renal artery stenosis as a therapy for heart failure: an observational cohort study
University of Manchester

Dr Agatha van der Klaauw Role of melanocortin signalling in the preference for dietary macronutrients in human beings
University of Cambridge

Prize supported by The Lancet

17:00 Keynote: Stem cells, cell differentiation and tumour formation
[Wolfson lecture theatre](#)

Professor Fiona Watt FRS FMedSci, Director of the Centre for Stem Cells and Regenerative Medicine, King's College London

18:00 Prize giving and drinks reception
[The Dorchester library](#)

Representatives from the UK's leading medical research funders will be present from 13:30 to 15:00 to answer your questions. They will be located beneath the main staircase with information resources and advice. Funders will include: the Academy of Medical Sciences, Wellcome Trust, Medical Research Council, National Institute of Health Research, Cancer Research UK, Arthritis Research UK, British Heart Foundation and Prostate Cancer UK.

The Academy is grateful to the Royal College of Physicians, The Lancet and the Lord Leonard and Lady Estelle Wolfson Foundation for their support of this meeting and to the National Institute for Health Research for their core support of the Academy's Mentoring and Career Development Programme. The Spring Meeting was established by the Medical Research Society.
